Re: Response from Committee ID#C00417063 for July Monthly  
Report (6/01/07-6/30/07).

Dear Ms. Daughtrey,

I write to respond to the September 26, 2007 inquiry received from the Federal Election Commission by the West Virginia Republican Party, Inc. with the assigned ID# C00417063. This letter asks questions related to the West Virginia Republican Party, Inc.'s July Monthly Report (6/01/2007-6/30/2007).

The Federal Election Commission asks for clarification for the activities identified as MEMO entries reported in Schedule A supporting Line 11(a)(i) that total \$2582.96. The Federal Election Commission noted that the activities reported as MEMO entries did not correspond to itemized transactions. The Federal Election Commission asks that this report be amended to provide clarifying information regarding this activity. The activities were reported as MEMO entries because they were expenses paid by an individual that were not reimbursed. They are reported as debt on Schedule D on this report. These expenses will be itemized as operating expenses on Schedule B when they are reimbursed. This question arose because I failed to note that these expenses were "to be reimbursed." I have amended this Report to reflect that these expenses were "to be reimbursed." I have also corrected subsequent Reports that contain the same error. These clarifications are available to the Federal Election Commission in the West Virginia Republican Party, Inc.'s amended report, filed with the Commission 10/12/2007.

Please contact me with any questions.

Sincerely,  
Theresa A. Waxman, Treasurer  
West Virginia Republican Party
